Discover Assateague Island National Seashore & Chincoteague National Wildlife Refuge as you journey through special places with awesome island scenery. Have a chance to paddle alongside wild ponies, bald eagles, shore birds and a variety of wildlife. Explore hidden areas of the protected barrier islands & venture into a vast array of pristine warm inland waterways.

Visitors love our kayak tours and boat tours. We have provided quality ecological tours here since 2001. Our company was recently featured on the ABC "Good Morning America" show. We are credited with incorporating the most desirable approach when it comes to seeing the wild ponies and experiencing these calm back bay areas.

Our guided kayak trips are designed for any level of paddler.

Our fleet of new kayaks are high performance, true coastal sea touring kayaks that reach remote areas with grace. Our kayak guides explain safety and proper paddling techniques before leaving the shore and help you search for wildlife along this great ecosystem. This is an awesome way for you to connect with nature.
